Summary

Motivated and detail-oriented software engineering student engrossed in different technologies across different domains such as ai/generative ai, machine learning ,cyber security , devops engineering , cloud engineering , web3 , full stack development test engineering , prompt engineering , blockchain , cross platform development like flutter+dart and web development. Seeking to apply my programming skills to real-world projects and also gain in-depth learning opportunity from experienced developers. Proficient in various programming languages and tools, with experience in web development and a strong understanding of data structures and algorithms.

I am aspiring to excel my knowledge in the field of cybersecurity and have learnt python and api key's integrations with ai and I have learnt most about necessary linux for cybersecurity and am expanding my knowledge in devops and full stack development in order to deeper my knowledge of the working of net and servers.

I have great interest in blockchain technology and how it can further change the landscape of the technology reaching a more secure web technology i.e. web3.

Education

KL University

Bachelor of Technology, Computer Science

2022 - 2026

Licenses & Certifications

Certificate of Participation in Online Aptitude Assessment of L'Oréal Sustainability Challenge 2023 - Unstop

b03ab2c8-a507-4fa5-b0e1-b276bc33fe84

ADManager Plus - MECPA - ManageEngine

Issued Nov 2023 - Expires Nov 2024

MECP00027728

Skills

Advertising Technology (AdTech) • Jira • Confluence • Atlassian Suite • Database Management System (DBMS) • SQL • Cybersecurity • Blockchain • Python (Programming Language) • Java
